ABC-VoIP Bronze, Silver and Gold

ABC-VoIP concentrates on the customer's convenience. We are aware that there are different expectations and demands regarding our calling service and rates. To find a balance between these two, we are offering you the option to choose the call quality and price, so you feel comfortable with your decision.

The difference in quality will manifest in the reliability of the connection, sound quality and also will depend on the region you are calling. The call rate will vary based on the plan you choose. You can decide on a different plan for every call you make, by dialing the plan code before your number.

Please see below the three available plans that are announced:

Bronze

- Plan code 00
- Basic quality
- Lowest calling rates
- Acceptable performance
- Reserved number of channels
- Works well for most calling destinations

Silver

- Plan code 000
- Improved quality
- Slightly higher rates
- Better performance
- More reserved channels
- Works for even more destinations

Gold

- Plan code 0000
- The highest quality
- Increased competitive rates
- The best performance available
- Even more reserved channels
- Works even for hard-to-reach destinations

Silver and Gold Plans have increased number of available phone channels in order to make the connection more reliable. You can take advantage of high-quality and affordable international calling by choosing the certain plan for each call.

ABC-VoIP will not disappoint your expectations. We provide quality and reliability at affordable price, enabling customers to make affordable international calls to family, friends and colleagues anywhere, anytime.
